## Farm Pressed Apple Juices

Available in 75cl green glass bottles

| VARIETY | DESCRIPTION | CAT |
| :---: | :---: | :---: |
| Grenadier | An Early Summer cooker with a strong and distinctive flavour that produces a creamy, acidic juice. | $\begin{aligned} & 14 \\ & \text { Dry } \\ & \hline \end{aligned}$ |
| BRAMLEY | Strong and distinctive apple flavour. This crisp \& dry juice is the foundation of our range for the drier palate. | $\begin{aligned} & \hline 13 \\ & \text { Dry } \\ & \hline \end{aligned}$ |
| MES GRIEVE | This traditional early season variety produces a strong savoury flavoured, dry juice. A taste of yester-year! | $\begin{gathered} 9 \\ \mathrm{M} / \mathrm{dry} \end{gathered}$ |
| cave | An early season variety raised in 1923. Harvests in July, which makes this a bit of summer captured in a bottle. Tart. | $\begin{aligned} & \hline 8 \\ & / \mathrm{dry} \end{aligned}$ |
| BRAMLEY \& SPARTAN | Bramley and Spartan juices mixed in equal quantity to produce a flavoursome, medium dry juice. | $\begin{gathered} \hline 7 \\ \mathrm{M} / \mathrm{dry} \end{gathered}$ |
| $\begin{gathered} \hline \text { COX\& } \\ \text { BRAMLEY } \end{gathered}$ | The spicy Cox is set off by the crisp, dry Bramley to make a delicious juice suitable for all palates and all occasions. | $\begin{array}{\|c\|} \hline 5 \\ \text { Medium } \\ \hline \end{array}$ |
| BLENHEIM ORANGE | Nutty flavour and said to be quite addictive! A sought-after Victorian variety, especially good with cheese. | $\begin{array}{\|c\|} \hline 6 \\ \text { Medium } \\ \hline \end{array}$ |
| KIDDS LATE ORANGE | Rich balance of sugar and acidity, strongly aromatic. Mellows to intensely flowery or rose petal quality. | $\begin{array}{\|c\|} \hline 6 \\ \text { Medium } \\ \hline \end{array}$ |
| SOMERSET ORCHARD | Blended from a selection of home grown apples to make a delicious and naturally medium juice. | $\begin{array}{\|c\|} \hline 6 \\ \text { Medium } \\ \hline \end{array}$ |
| $\begin{gathered} \text { COX'S } \\ \text { ORANGE PIPPIN } \end{gathered}$ | Enticing with rich, aromatic flavour. Spicy, honeyed and pearlike. A subtle blend of great complexity. | $\begin{array}{\|c\|} \hline 3 \\ \text { Medium } \\ \hline \end{array}$ |
| DISCOV | This well known early English variety has a subtle pink tinge to its juice and a hint of strawberries in its flavour. | $\begin{array}{\|c\|} \hline 6 \\ \text { Medium } \\ \hline \end{array}$ |
| JUNAMI | New Kid on the Block. Sweet and sharp, a crisp apple that is well.........just very juicy. Smooth and great quality. | $\begin{array}{\|c\|} \hline 5 \\ \text { Medium } \\ \hline \end{array}$ |
| IDAR | A succulent and textured juice that is very refreshing and often said to have a wine-like flavour. | $\begin{array}{\|c\|} \hline 4 \\ \text { Medium } \\ \hline \end{array}$ |
| JONAGOLD | A rich, honeyed and almost aromatic flavour. This popular apple has a crisp texture and is well liked. | $\begin{array}{\|c\|} \hline 6 \\ \text { Medium } \\ \hline \end{array}$ |
| $\begin{aligned} & \hline \text { GOLDEN } \\ & \text { DELICIOUS } \end{aligned}$ | Tree ripened, English Golden Delicious have a full flavour not found in immature imports. A delicious hint of caramel. | $\begin{array}{\|c\|} \hline 5 \\ \text { Medium } \\ \hline \end{array}$ |
| RED PIPPIN | An outstanding quality juice with excellent flavour, texture and appearance. Cox is one of it's parents. | $\begin{gathered} \hline 3 \\ \text { Sweet } \end{gathered}$ |
| CRISPIN | A crisp, light juice that is honeyed \& scented. Particularly appetising when cool refreshment is required. | $\begin{array}{\|c\|} \hline 5 \\ \text { Medium } \\ \hline \end{array}$ |
| JUPITER | A complex, Cox-like flavour. Sweet-sharp, often with a hint of pears. Refreshing \& typical of an English variety. | $\begin{array}{\|c\|} \hline 5 \\ \text { Medium } \\ \hline \end{array}$ |
| $\begin{aligned} & \hline \text { COMICE } \\ & \text { (PEAR) } \end{aligned}$ | Doyenne du Comice pears are the Duchess of all pears. Superb pear flavour (mixed with a little Bramley juice). | $\begin{array}{\|c\|} \hline 3 \\ \text { Medium } \\ \hline \end{array}$ |
| SUNSET | Aromatic with intense flavour, not as complex as Cox. This is a robust juice of superb quality. | $\begin{array}{\|c\|} \hline 4 \\ \text { M/Sweet } \\ \hline \end{array}$ |
| KATY | Refreshing and slightly acidic, this early season apple derives its distinctive flavour from its Worcester parentage. | $\begin{gathered} \hline 8 \\ \text { Dry } \\ \hline \end{gathered}$ |
| GALA | Rich, honeyed juice with some perfume. It's flavour is greatly enhanced in an English climate. | $\begin{array}{\|c\|} \hline 4 \\ \mathrm{M} / \text { sweet } \\ \hline \end{array}$ |
| EGREMONT RUSSET | Words can barely describe the uniqueness of this nutty flavour. This is an apple juice with heavenly qualities. | $\begin{array}{\|c\|} \hline 1 \\ \mathrm{M} / \text { sweet } \\ \hline \end{array}$ |
| howGATE WONDER | A traditional and distinctive flavour that should not be missed. The variety is famed for its large apples. | $\begin{gathered} \hline 3 \\ \text { Sweet } \end{gathered}$ |
| WORCESTER | Intense strawberry flavour. The juice is creamy and light in colour. A taste of summer, trapped in a bottle! | $\begin{gathered} \hline 2 \\ \text { weet } \end{gathered}$ |
| SPARTAN | Perfumed with a strawberry/melon flavour. Sweet and crisp with a distinctively fresh apple experience. | 3 <br> weet |
| $\begin{gathered} \hline \text { RED } \\ \text { DELCIOUS } \end{gathered}$ | Densely sweet but not sickly. This is a lightly aromatic juice with a texture that is quite unique. | 3 <br> Sweet |
| РАСКНАМ'S TRIUMPH | A slightly stronger, almost citrus flavour to most other pear varieties. A little Bramley juice adds extra body. | $\begin{gathered} \hline 3 \\ \text { Sweet } \end{gathered}$ |
| CONFERENCE <br> (PEAR) | We have used our own tree-ripened Conference pears and added to the robustness with a touch of Bramley juice. | 3 <br> weet |
| CONCORDE (PEAR) | A cross between Comice \& Conference taking only the best characteristics fom both! (with a little Bramley juice.) | $\begin{gathered} 3 \\ \text { Sweet } \end{gathered}$ |

Cox \& Bramley and Conference pear juices are also available in 25 cl bottles.
$\qquad$

## Our Range

Our broad range of apples \& pear varieties are all natural and unsweetened. Every variety has its own individual character and flavour making each distinctive in its identity. They are arranged by their natural acidity and the range extends from sweet to tart with every palate catered for in between (acidity may vary from year to year). For customers wanting to discover more about our range we offer free tasters at the Farmers Markets. On the 2nd weekend in October each year, we host an Apple Weekend (together with "Art in the Barn" and "Tractors in the Field") where the public can come and and "Tractors in the Field") where the public can come and

are offered to encourage enthusiasm for a wider range of English apples and their associated products.

## Looking after our Environment

We make every effort to ensure that our products do as little to harm our environment as possible. Our methods of farming are audited by the Red Tractor Scheme. Food miles are limited because all the processing is done on the farm by our own staff. Where possible we deliver to shops and garden centres directly from the farm. Retailers further afield are supplied by a Bristol wholesaler who collects directly from the farm. Any empty bottles that are returned to the farm are cleaned and re-used, as is any packaging.

## Apple Cider Vinegar

Apple Cider Vinegar (ACV) is a delicious culinary ingredient as well as having many well known health properties. We sell live ACV in 1 pt , 1 gal and 251 tr containers

## Apple Day

We hold an Annual Apple Weekend on 2nd weekend in October each year. Please see website for details.

Our Farm Retail Outlet is at the
NORTH PERROTT FARM SHOP \& GARDEN CENTRE
(Retail enquiries only Tel: 0146077090 Postcode - TA18 7SS)
We attend Crewkerne Farmers Market on 3rd Saturday each month, 9am-1pm.

## PLEASE SUPPORT LOCAL BRITISH PRODUCE

We are extremely grateful for your valued support for the local rural economy
Thank you.

## NORTH PERROTT <br> Fruit Farm

APPLE PRESSING \& BOTTLING SERVICE www.parrettbrand.co.uk

NATURAL \& HEALTHY

Land on which the orchards grow has been owned by the same family since 1740 . The North Perrott Fruit Farm was established by my Grandfather in 1930 and he created the Parrett Brand Logo to market his apples. His inspiration was derived from the name of the River Parrett which borders the farm and from which water is abstracted to irrigate the orchards. The logo of a parrot sitting on an apple branch was a play on both the branch was a play on both the
names of the River Parrett and the village of North Perrott which is where the farm is located. For the Millennium, the Logo was redesigned to incorporate representation of the river and to give the brand 'stamp effect'. We hope that Parrett Brand will continue to be associated with the traditional quality Somerset produce that we have been growing for over 92 years.

Jonathan Hoskyns

## Production

Parrett Brand apple juice is made from our own apples, grown and pressed on our farm. The apples are hand selected and washed before milling into a pomace from which the juice is extracted. The pomace is passed through a modern belt press and a small mount of vitamin C is added to prevent oxidisation. The juice is not filtered but allowed to settle before bottling. The result is a naturally cloudy juice that is full of the flavour and texture of the apples. Finally, the product is gently pasteurised to ensure long life.

APPLE PRESSING and BOTTLING SERVICE
We can press, bottle and pasteurise your apple crop so that you can enjoy the fruits of your garden all year round (and longer still, if necessary).

If this idea appeals, you should be considering the following:

What time of the year are my apples ripe to pick?
With the exception of a few early varieties, most apples ripen at the end of September to the middle of October. It is best to leave apples to ripen for as long as possible on the tree to capture the best flavour.
Will my apples make a palatable juice?
As a rule of thumb, most apples are either quite sweet or quite tart. Unless you want to press a single variety, it is best to blend about $66 \%$ sweet apples with $33 \%$ tart.
How much juice do I want.
We extract about $62 \%$ of the weight of your apples in juice. There will be a small amount wasted in the pipes and lees of the settling tank but please allow for $80 \times 75 \mathrm{cl}$ bottles from each 100 kg of fruit. There are discounts for larger quantities.
How long will my juice keep?
Once pasteurised, if stored somewhere dark and cool, it should keep for years. Obviously, the sooner drunk the better but there's absolutely no rush.

Timing - We press once or twice in August and then not again until October. This is because we are busy harvesting in September and all our resources are directed to that. You should start to harvest apples for juicing from the middle of September to the middle of October, as they begin to ripen but before they fall off the tree. If your harvest will be protracted over a week or two, we can allocate you a bin to store your fruit on the farm and you can add to it as and when. You should not pick apples that are rotten or look as if they may rot quite quickly and while it is OK to pick up apples that have dropped freshly on grass, apples with mud on them should be avoided. Dirty apples rot very quickly and will have to be removed before pressing. Hand picking with as little bruising as possible is best.

As soon as possible after you have completed your harvest, we will press your apples and your bottles will be ready to collect within a few days.

Service - Our normal service is quite basic and includes the following:

> Pressing your apples
> Addition of Vitamin C at 5g/10litres (antioxidant).
> Settling the juice for 12-24hrs.
> Bottling into 75 cl bottles, pasteurising and tamper-proof caps.
> Washing bottles into cardboard boxes in 12's

The application of shrink caps and/or labels can be discussed but will attract an additional charge. These services also allow the alternative of shrink wrapping in 6's

Best Before Dates are advisory and are purely for stock control (unlike "sell by" or "use by" dates, which are mandatory). We obliged to put a best before date of 12 months from the date of production. If you intend to sell (or give) your juice to a third party, you should give a visual inspection to check that the bottle and top are in good condition and that there is nothing visibly wrong with the juice (islands of mould or discolouring).

If there is nothing wrong, you may put a further 12 months Best Before Date when you part with your juice.

Prices - We have introduced a scale of charges, so that we can accommodate smaller batches of fruit, which are naturally more time consuming to process. This year costs for each batch will be as follows: (NB. Bottles have gone up $29 \%$ in Oct 22 and these prices now reflect this rise in costs)

| $12-99$ bottles | $-£ 1.68$ each |
| :--- | :--- |
| $100-190$ | $-£ 1.56$ each |
| $200-499$ bottles | $-£ 1.52$ each |
| $500+$ bottles | $-£ 1.46$ each |
| Card boxes | $-£ 0.85$ each |
| All prices are plus vat. |  |

Reducing Waste \& Recycling - we have managed to reduce $87 \%$ of our transport waste by removing cardboard as a packaging material. For those customers who want their bottles in a cardboard box, there is a surcharge per box of 12 , otherwise
 bottles will be shrunk wrapped in 6's in re-cyclable polythene.

All empty bottles returned to the farm will be washed and reused.

Unfortunately, owing to the cost of labour we are no longer able to pay for returned bottles but reusing bottles and boxes reduces our carbon footprint significantly.

Anwen and I wish you all a very successful harvest.
If you have further questions or wish to book in your crop for pressing this year,
please email Jonathan on
parrettbrandfarmshop@gmail.com or call/text 07778894546
